

Body Explorer 2.0: An Interactive Multilingual Program on the Cross-Sectional Anatomy of the Visible Human. English, Deutsch, Espaniol, Francais, ... (English, German and French Edition)

The multi user version of Body Explorer provides unique access to labeled sectional images from the Visible Human Project. It is the first software that enables the user to display a fully labeled data set of human cross-sectional anatomy on the Windows platform. It features 2000 high-resolution sectional anatomical images of a human body, more than 13.000 anatomical labels assigned to anatomical and functional systems (nomenclature in 6 languages), zoom-in and zoom-out, superimposition of other planes of sections, the visual selection of section levels on sagittal or coronal planes or by keyword search, and many other extras. It is the optimum program for learning, teaching, and review by students, teachers, and physicians.
