

Five Equations That Changed the World: The Power and Poetry of Mathematics

A Publishers Weekly best book of 1995! Dr. Michael Guillen, known to millions as the science editor of ABC's Good Morning America, tells the fascinating stories behind five mathematical equations. As a regular contributor to daytimes most popular morning news show and an instructor at Harvard University, Dr. Michael Guillen has earned the respect of millions as a clear and entertaining guide to the exhilarating world of science and mathematics. Now Dr. Guillen unravels the equations that have led to the inventions and events that characterize the modern world, one of which -- Albert Einstein's famous energy equation, $E=mc^2$ -- enabled the creation of the nuclear bomb. Also revealed are the mathematical foundations for the moon landing, airplane travel, the electric generator -- and even life itself. Praised by Publishers Weekly as a wholly accessible, beautifully written exploration of the potent mathematical imagination, and named a Best Nonfiction Book of 1995, the stories behind The Five Equations That Changed the World, as told by Dr. Guillen, are not only chronicles of science, but also gripping dramas of jealousy, fame, war, and discovery.

Five Equations That Changed the World: The Power and Poetry of Five Equations That Changed the World: The Power and Poetry of Mathematics is a book by Michael Guillen, published in 1995. The scientists and their equations are: Isaac Newton (Universal Law of Gravity) Daniel Bernoulli (Law of Hydrodynamic Pressure) **Five Equations That Changed the World by Michael Guillen** : Five Equations That Changed the World: The Power and Poetry of Mathematics (9780786861033) by Michael Guillen and a great selection of **Five Equations That Changed the World - Wikipedia** Five Equations that Changed World : The Power and Poetry of Mathematics on . *FREE* shipping on qualifying offers. Five Equations that Changed **Five Equations That Changed the World: The Power and Poetry of** The NOOK Book (eBook) of the Five Equations That Changed the World: The Power and Poetry of Mathematics by Michael Guillen at Barnes **Five Equations That Changed the World: The Power and Poetry of** Five Equations That Changed the World: The Power and Poetry of Mathematics by Michael Guillen (1995-09-01) [Michael Guillen] on . *FREE* **Five Equations that Changed the World: The Power and Poetry of** The Hardcover of the Five Equations That Changed the World: The Power and Poetry of Mathematics by Michael Guillen at Barnes & Noble. **Buy Five Equations That Changed the World: The Power and Poetry** Also revealed are the mathematical foundations for the moon landing, Five Equations That Changed the World: The Power and Poetry of Mathematics. **Five Equations That Changed the World: The Power and Poetry of** : Five Equations that Changed the World: The Power and Poetry of
