

Carly Arizona: A novel

Having lived in a quiet, sleepy town in Southern Lanzarote for ten years, fourteen year old Carly is completely unprepared for the changes the filming of a Hollywood TV show will bring to her town. Her friends lives revolve around the show, her mother is working harder than ever to clean her villas for the famous guests and even her teachers want a picture with the lead actress. But Carly has other things to worry about: the overbearing lead actress is keeping a dangerous secret, the meanest girl in town is desperate for her help and the possibility of a seemingly unlikely romance is keeping her up at night. Her whole life has turned upside down...but does she really want things to go back to normal? Or is this new, small version of Hollywood too fun and exciting to give up?
