

Light of Mankind: The Child Dromen Book I

Enslaved for 800 years by a tyrannical race known as the raju, mankind has finally slipped the binds of torture and captivity. However, still in hiding from the dangerous world in little hovels, the race of mankind awaits a hero to emerge from their ranks and rekindle the fire snuffed out by their former overseers. Reid Hazen, a young, short-tempered shopkeeper, dreams of an adventurers life. However, he has accepted his boring peddlers fate, until the day his childhood friend Simone Mondragon, brings to him a note from his deceased mother, telling of the heroic blood that runs through his veins and brands him the mysterious name of The Child Dromen. The letter sets off a perilous and impossible journey the two must embark on, straight into the heart of the raju kingdom, and their course will test each fiber of their strength and every shred of determination they own. Armed with Reids sword and Simones arcane, they are the only hope to stop the immortal daemon Nhriel, who has nested within the last great beacon of mankind and will stop at nothing to bring forth a new age of darkness.
