

The Currents of Scorpio (The Zodiac Mysteries) (Volume 3)

In Book 3, the water sign territories have succumbed to the Paragons. There's a new administration, new restrictions and a new danger lurking in the minds of the men who hold the reins of power in government; and on eerie, isolated Triton Isle there are those who seek power from another, otherworldly source. A storm is coming. . . In the middle of the maelstrom is Brooke Otto, a Cuspian who brings the fury of water and air together in one extraordinary being.
