

Seen Dancing: Essays from the Heart (Mystic Angel Healing)

And those who were seen dancing were thought to be insane by those who could not hear the music. --Friedrich Nietzsche
Seen Dancing is a collection of essays and stories as they occurred to a spiritual being having a human experience. When you walk a spiritual path, you may encounter people who do not understand you. That is their short-sightedness rather than your shortcoming. Their lack of spiritual experience in no way nullifies the bounty of yours. There are people engaged in spiritual discussions who have opinions and beliefs based in dogma, and then there are people engaged in spiritual discussions who have experiences. Just because those experiences vary, it doesn't mean that they are contradictory. When beliefs are built upon dogma, conflict arises. When beliefs are built upon experiences, community arises. It is the authors hope that these stories and essays will build community.
