

SHERMANS SHORTS; The Beginnings

DAVID SHERMAN first tried writing when he was discharged from the US Marine Corps. He didnt really put his heart into it at that time, and soon stepped back from writing in favor of the visual arts. Years later, he returned to writing. Soon enough, he decided that he was going to succeed at writing or die in the attempt. He hasnt looked back. Now, thirty-odd novels later, he is putting forth his first collection of short works. The first several pieces, mostly two or three pages, are from that initial time after the Marines. They are followed by a paper he wrote for a telecommunications course at the Annenberg School of the University of Pennsylvania, a paper that convinced him he could write. The remainder of the book is short stories and novelettes that he wrote mostly during the first year after he began writing seriously, along with his first two published short stories, and a quartet of poems he wrote during his first year of writing. Most of the entries in this book are published here for the first time.
