

Sophie and the Next-Door Monsters

Sophie Chalk can make a snake head with her fingers and play a four-person game all on her own. She can even draw a circus that covers her entire wall! But when new neighbors move in next door, Sophie's not sure she can handle meeting them. Because there's something different about these new neighbors. . . . It'll take some courage and a few new tricks to show Sophie that sometimes meeting new people . . . or new monsters . . . isn't so bad after all. Richly illustrated and brimming with imagination, Chris Case's debut is a monstrously good time!
