

## Stones of Abraxas (World of Abraxas Book 1)

David Stanhope is an average twelve-year-old. His friends are geeks. School is an endless series of humiliations. And his summer vacation is about to be wasted at a broken-down cabin in the middle of nowhere. But there's a secret lurking in David's attic. It transports him and his sister Amanda to the magical world of Abraxas where dragons scour the prairie for prey and centaurs patrol in search of humans. They learn that the people of Abraxas live in fear of a centuries-old sorcerer who has spent his life trying to impose his evil rule on the land. If he discovers who David and Amanda really are, they will be forced to help him - or be destroyed. Maybe David isn't so average after all.
