

## Telepathy Will Change Your Life (Telepathy Series Book 1)

This is the first book in the telepathy series.

I have to point out..... this is a beginning book for telepathy. The book teaches you the how to communicate your thoughts to others and tune into other peoples thoughts. The tools explained in this book can be used to acquire employment and help employers make the correct choices when hiring employees. The foundation is meditation and every person has their own way of meditating. I give you my way to meditate. This is an easy to read book, not filled with mumbo jumbo and other peoples thoughts about telepathy. This is about what I found, through trial and error, for me, to work. Now I give this knowledge to you. You will not need a doctorate degree to explore the simple steps to prepare your mind for sending and receiving thoughts. The Bioelectrical Magnetic Force-field (BEMFF) spoken about in this book is what our ancestors used to communicate with eachother and possibly they even attempted to change horrific and dangerous situations for themselves. I expect this use of their minds....allowed for their survival. The BEMFF is what surrounds our bodies. Sometimes it is called a glow that people are able to see. I believe it to be our own energy field. Now you to can learn telepathy and use these mental skills to enhance your life in our modern world. Truly.....The possibilities are endless. Think, learn, and rule your life. Enhance your mental capabilities. The next book in the telepathy series brings you a little further in your telepathy studies, it is called: The Telepathists. Remember this book is a primer for the novice in telepathy or a refresher for the experienced telepathist.
