

The Geology and palaeontology of the Clyde Drainage Area; being the geological portion of the Natural history handbook issued for the meeting of the ... the members of the Geological Society of GI

This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1904 Excerpt: ...Rocks and Graptolitic Shales of the Moffat district, *Trans. Geol. Soc. Glasgow*, vol. vi., p. 178. 1879. Dairon, J., Note on the Reproduction and Development of Graptolites, *Trans. Geol. Soc. Glasgow*, vol. vi., p. 206. 1880. Lapworth, C, On Graptolites, *Trans. Geol. Soc. Glasgow*, vol. vi., pp. 260 and 303. 1880. Lapworth, C, On new British Graptolites, *Ann. and Mag. Nat. Hist.*, Feb., 1880, pp. 149-177. 1880. Dairon, J., Notes on several new forms of Graptolites from the Silurian Shales of Dumfriesshire, *Trans. Geol. Soc. Glasgow*, vol. vii., p. 43. 1882. Lapworth, C, The Girvan Succession, *Q. J. G. S.*, vol. xxxviii., pp. 537-666. 1884. Macconnochie, A., Review of the Southern Silurian question, *Trans. Geol. Soc. Glasgow*, vol. vii., pp. 370 and 431. 1884. Forsyth, D., The Silurian rocks of the Girvan district, *Trans. Geol. Soc. Glasgow*, vol. vii., p. 558. 1889. Lapworth, C, On the Ballantrae rocks of the South of Scotland and their place in the Upland Sequence, *Geol. Mag.*, dec. iii., vol. vi., pp. 20 and 59. 1898. Elles, Miss G. L., The Graptolite Fauna of the Skiddaw Slates, *Q. J. G. S.*, vol. liv., p. 463. 1899. Peach, B. N., and Home, J., The Silurian rocks of Britain, vol. i., Scotland. *Memoir of the Geol. Survey of the U. K. THE OLD RED SANDSTONE OF THE CLYDE AREA.* By J. G. Goodchild, F.G.S. The rocks usually classed under the general name of the Old Red Sandstone in Scotland consist of four separate formations, three of which are well represented within the basin of the Clyde. These three are widely separated from each other in time, and are linked together chiefly because they collectively occupy a geological position intermediate...
