

Introduction to the Greek of the New Testament (Classic Reprint)

Excerpt from Introduction to the Greek of the New Testament As very few in ected words occur in all their parts in the New Testament, different words have often been introduced into the same paradigm; therefore the student will probably find it best to memorize in order only the terminations. In the Appendix is a uniform paradigm of the regular verb, which will be found convenient for reference; also a tabular view of the endings of nouns. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
