

Words From That Which Lies Within (Series 1)

This book is the first volume of a series of prose, meant to support you in your personal exploration and creative expression of that which lies within your heart and soul. It serves as a reminder of the many similarities we share in this journey called Life, despite what may seem to be a long list of differences among all of us. We readily recognize differences among us---race, religion, culture, economic status, but its when we can celebrate our similarities that we truly have raised our consciousness and connected with the divinity we all share. This book will remind you of the sameness we share at our very core, and will support you as you allow your core to open and express its oneness with the whole. May this book support you as you allow your heart and soul to express itself through reflective writing.
