

## Worship Walk: where worship and life intersect

Gareth Goossen describes worship as entailing more than music, as entailing all of life. To that one can only say a hearty Amen. But he does more than this, for he not only describes the goal of worship, doing so in a very down-to-earth way, but he also gives us the practical steps for progressing towards that goal. Worship does involve all of life, and I warmly recommend this book to anyone who is interested in entering into this reality. Dr. Peter H. Davids, author, pastor, professor, and New Testament scholar At the very heart of worship is our longing to know and love God! Worship Walk helps bring us back to that heart in a compelling way! There are many powerful truths covered in this book I love the way Gareth helps us to remember the truth of the cost of worship. God is more committed to forming his character in us than he is in providing for our comfort. This book is a timely reminder of what worship is all about and how we are to walk it out in our lives. Brian Doerksen, world-renowned songwriter and worship leader Worship Walk is an amazing manual for Christian living. Gareth has taken foundational aspects of Christianity and shown them through the lens of worship. As a worship leader who has also found great joy in worshipping God through things in addition to music (mountain biking, for one), I found this book to be very affirming but also very challenging! Kevin Boese, songwriter and worship pastor
